Simple height adjustment system

Top of the range the 3 metre hardwood timber stretching barre is strong and durable with a warm and natural feel. The timber is finished to a satin gloss in durable two pack epoxy and comes in a fixed (TD) or height adjustable model (TDJ) with a 350mm travel on the top barre.

Easily demounted the lightweight Aluminium supports and secondary barre have an attractive clear anodised finish at the standard 1070mm height and 48mm diameter. Both units are extremely sturdy and with their non-slip feet provide a solid and dependable support. The feet may be loosened and made parallel for ease of storage.

A lobe knob and bracket (K) can be supplied for an additional **\$25.00** to facilitate this.

The secondary barre can also be supplied in timber (TT) for an extra **\$125.00**. *To set the appropriate height:* 1070mm (42") is the International Standard but to assess your own personal height, put your arms to the side, bend your elbow and bring your forearm to a 90 degree angle to your humerus (upper arm).

Detail of height adjustment

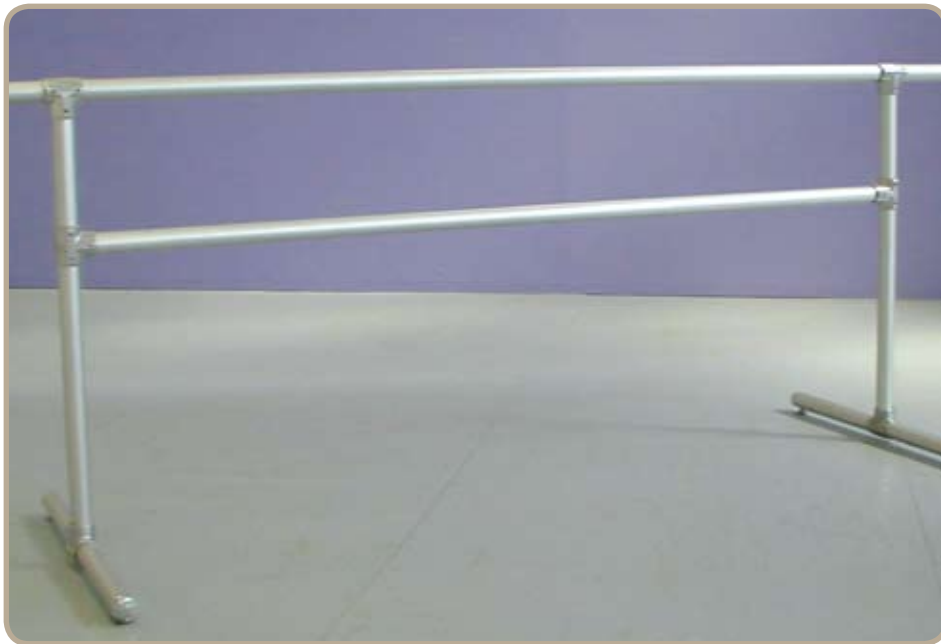

This double barre barre has been designed to maximise available floor space and is twice the “bang for your buck” with a single unit accommodating twice the number of Dancers.

Two Barres mounted on independent tracks allow two separate working heights on the same barre this is ideal for groups of differing heights and ages. The cross barre is fixed at 550mm allowing freedom of movement whilst providing maximum strength and stability. The top Barres have a 350mm range of height adjustment.

The Barres are available in Timber, Aluminium which of course can be powder coated to any colour in the dulux range. www.duluxpowders.com.au

(1.2 metre extension for PortaBarre™ 2.8 metre)

As the name suggests this is the most PORTABLE unit in our range.

The En Pointe Enterprises PortaBarre™ was developed in Canada by professional dancer David Lucas and his wife Lissette Salgado in 1999. Since then over 5,000 have been sold mostly to professional companies. They have been specifically designed as a knockdown and carry system for easy transportation while retaining strength and stability.

This is achieved through an internal double button locking system and high-grade lightweight Aluminium construction.

Features include:

- Custom designed carry case
- No tools or locking keys required
- Scratch resistant paint finish
- Extremely lightweight the 2.8 metre bar weighs just 11.4 kg

The 1.4 metre barre is ideal for home use whilst the Professional Barre can extend out to 4 metres and can accommodate up to six dancers. Perfect for the dancer on the move.

Comes in its very own carry case

Folds nicely away

STEEL AND TIMBER ADJUSTABLE BARRE

typical options available

STJ3 •

For those on a budget this is extraordinary value.

Although weighing in at 30 kg it is an extraordinarily robust barre due to its all steel frame. It also comes with a simple height adjustment feature with a locking pin and locking knob system from 620mm – 1025mm.

Coming in a standard 3 metre length and a clear finished 44mm oak barre. The frame comes in one colour only an attractive iridescent blue lacquer over self-etching primer.

BEAUX BARRES

typical options available

- BB 2.4m •
- BB 3m •
- PBB 2m •

The Beaux Barres are a deliberate attempt to make the most affordable barre possible whilst including many of the features of more expensive barres.

The "Beaux Barre" is a lightweight steel frame with height adjustable timber barre and feet that can lock parallel for storage. Available in two sizes only (3m and 2.4m) and finished in a hardwearing black.

Whilst budget priced there has been no compromise in quality with the steelwork both galvanised and painted with a satin epoxy finish. They are also designed to easily disassemble for ease of transport.

PETIT BEAU BARRE

The Petit beaux is literally that, a "little Beauty". For the developing dancer this barre is designed for affordable home use and features a height adjustable slightly thinner timber barre to accommodate still growing hands. Comes as a standard 2 metre silver painted finish but can be powder coated on request.
