Hollaender Speedrail™ is a patented modular fitting system, which lends itself to quick and easily assembled pipe structures.

Produced from the highest quality materials and featuring a simple to use assembly system; Speedrail™ is a high strength cast made from corrosion resistant aluminium magnesium alloy 535 and has a bright attractive burnished mill finish.

Advantages include:

- **Speed of installation**
- **Ease of installation** - lobe nuts to suit can be supplied for repeatable demount
- **Flexibility** - Speedrail™ comes in a large range of Diameters
- **Reusability** - Speedrail™ is virtually indestructible
- **Strength** - Speedrail™ conforms with ASA 1657 for Handrails 8.3mm and at 48.3mm is rated over 400kg. The system exceeds applicable requirements as specified by OSHA, BOCA, SBC and UBC.

A time tested system limited backed by 50 years of experience Speedrail™ has become the industry standard for Australian Grips and Gaffers. For more information visit www.hollaender.com/speedrail.htm

A Professional System limited only by your imagination.
